

About Us

Bethel Care Services is a residential and a community based provider for people with intellectual/developmental disabled adults. It is located in the western part of Dakota County in the City of Hastings, Minnesota. Our mission is to treat our residents always with dignity, care and respect. We make caring our priority in order to give our residents a good quality of life. Good service quality is strictly enforced in our program and this will be done by encouraging our residents to make choices, foster relationships and have satisfaction in their community and where they live. Quality lifestyles will be promoted in our program and our resident's health and good well-being will be our main focus. Person Centered Planning is also a main focus of our program.

Our resident's best interest is very important to us because they are our number one priority. We ensure a comfortable environment to all the residents we serve and this is why we have our homes in peaceful, friendly and beautiful neighborhoods. Our client's choice and input is very important to us when furnishing or decorating our homes. We encourage family involvement because we believe when families are involved, residents are more happy. We provide transportation for residents that want to visit family, attend community functions and go for medical appointments.
